Letter of explanation to Commissioner of General Land Office  
in connection with survey for John D. Miller Of 48.4 acres.

While I was surveyor of Hays County, H. C. Hubbs made application for a survey of this tract of land, and I completed the survey Feb. 4, 1909. At that time I had all of the field notes of each adjacent survey. The N. E. line of the Elijah Clarke and the S. W. line of the F. M. Stovall are well marked upon the ground. I went to intersection of the N. E. line of the Elijah Clarke Survey and the S. E. Line of the F. M. Stovall Survey, and ran S. 45° W. 500 varas to the south corner of the Stovall Survey. I then ran N. 45° W. with the S. W. line of the Stovall Survey 2873 varas. I then ran N. 45° E 500 varas to the N. E. line of the Elijah Clarke Survey and placed South corner of the vacancy. I then went to the ~~south~~ corner of the I. & G. N. R. R. Survey # <sup>of 43.6 Acres</sup> 1 and ran S. 45° W. 1986.5 varas and placed corner for east corner of vacancy. I then went to N. corner of R. Wilkins Survey and ran S. W. 2283 varas to old rock mound from which a L.O. 24" dia. bears S. 45° W. 18 varas. I then proved up the I. & G. N. R. R. Survey # <sup>of 7.4 Acres</sup> 1 corners finding the south one with its bearing tree S. 45° W. 1 vara.

I then placed north corner of vacancy by replacing the east corner of the I. & G. N. R. R. Co. 7 2/5 acre tract, and the west corner of the vacancy by running S. 45° W. 117 varas intersecting the N. E. line of the Elijah Clarke as extended N. 45° W. from the known line.

I then completed my survey for H. C. Hubbs, making bearing trees for all corners, and preparing field notes for the survey, but Mr. H. C. Hubbs failed to pay me for my work, so the survey was not returned to the Land Office.

As Deputy County Surveyor of Hays County, I have received the file of John D. Miller. I secured my old field book and the field notes previously prepared, and went upon the ground and found all corners except the north one existing as placed in 1909, and checked all the bearing trees which are still existing. I also resurveyed the

the 48.4 acre tract according to field notes herewith submitted.

I did not deem it necessary to do all of the research work over

under the circumstances as it was so thoroughly done in 1909, and

as no new data has been discovered, and all of the original work done

done by me in 1909 is in evidence upon the ground, and all notes

and records are still on file in the Hays County Surveyor's Office.
